Medical, Veterinary, and Environmental

Who We Are?

One Health Approach Ltd Co. is known as OHA. OHA works in medical, veterinary, and environmental supplies in Saudi Arabia.

It was founded in 2024 in Riyadh city by Dr Saleh Alshaya. OHA is distinguished by its exceptional, specialized, and high-quality supplies in medical, veterinary, and environmental fields, providing the best customer experience through automation, quality, price, and commitment to clients.

Mission

We aim to create an innovative and sustainable supply chain that contributes to improving the health of humans, animals, and the environment by following the best supply practices of the One Health approach.

Vision

We strive to be the most reliable provider of integrated supply services in the medical, veterinary, and environmental fields, delivering exceptional customer experiences globally.

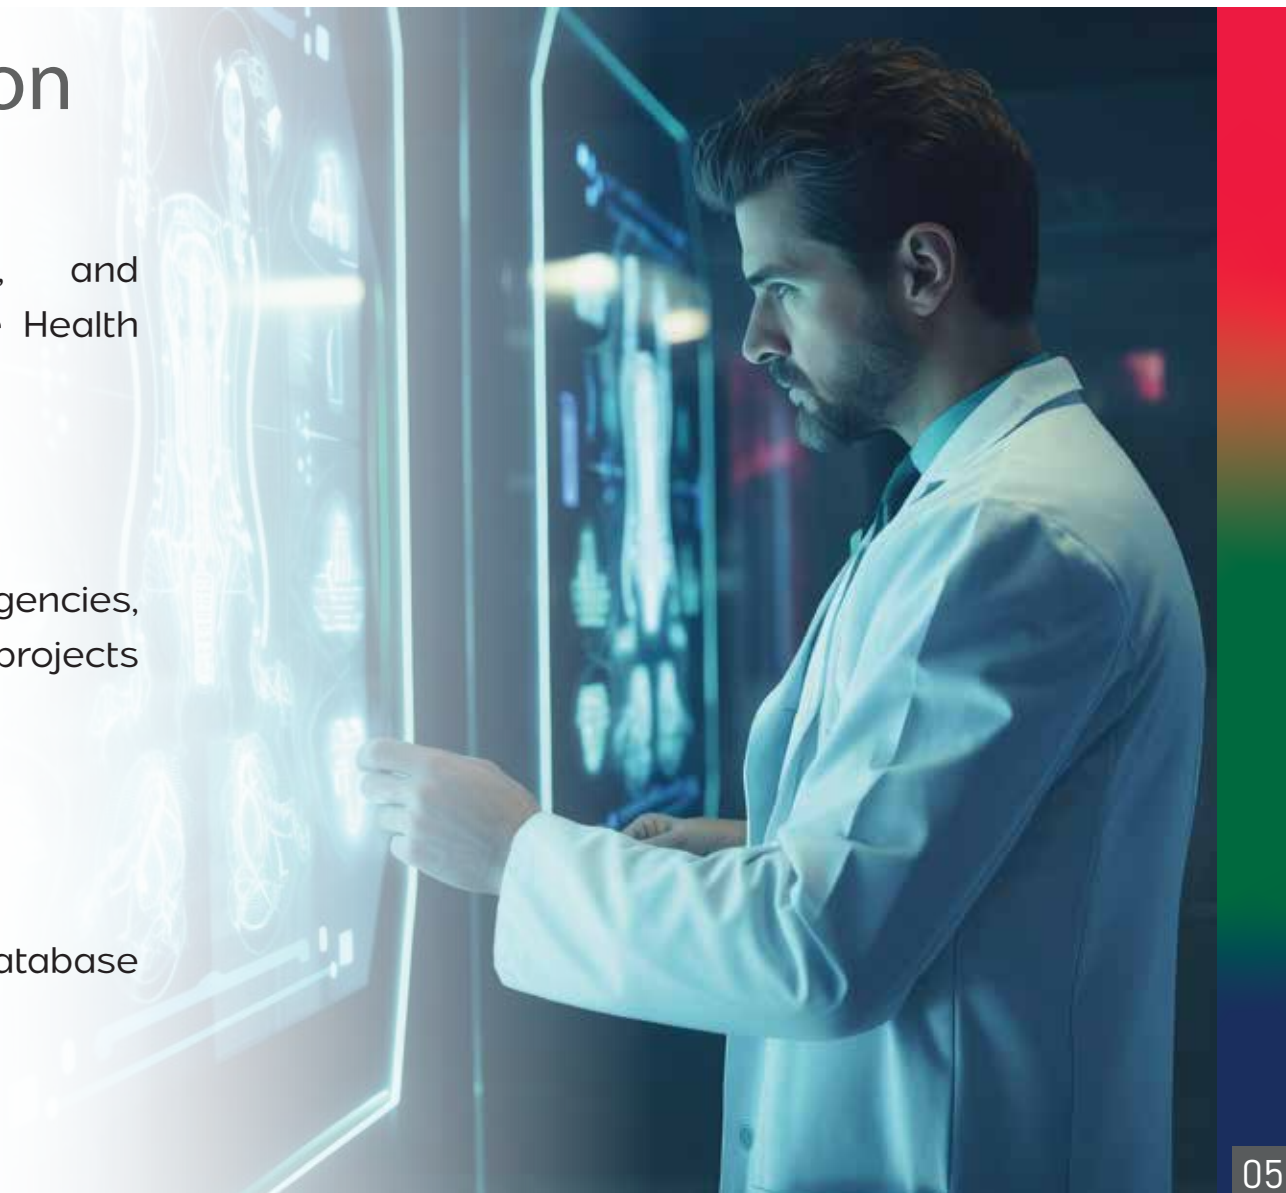

Values

- Sustainability and Commitment to Growth
- Strict Risk Management
- Innovation, Creativity, and Transparency
- Knowledge Exchange
- Giving, Cooperation, and Understanding
- Value-Driven Supply Chain
- Distinguished Value-Added Services
- Empowering the Community

Objectives and Mission

- Integrate medical, veterinary, and environmental supplies under the One Health approach in a single company.
- Collaborate with government agencies, authorities, and centers on operational projects that support the One Health approach.
- Create a One Health approach database in the Kingdom.

One Health Concept

The One Health approach is an integrated and unified method aimed at achieving optimal balance and performance in human, animal, and ecosystem health. It leverages the close and interconnected relationships among these fields to create new methods for disease surveillance and control.

Sustainability

We recognize that sustainability is a core principle of our development and progress. We strive to balance the current and future needs of human, animal, and environmental health and are committed to adopting sustainable practices in all aspects of our work.

Our Story

One Health Approach Ltd. was established to meet the need for a single company that serves all medical, veterinary, and environmental sectors with high specialization. We understand that there are common products and services across these sectors that can be efficiently provided by one establishment, ensuring quality and efficiency.

Strategic Goals

To be the leading Saudi company in integrating supplies across the various sectors of the One Health approach with high specialization in each sector.
